WITH INDUSTRY
4.0 TECHNOLOGIES

The background of the entire image is a photograph of an industrial painting plant. Numerous white, rectangular panels with vertical slats are hanging from an overhead orange conveyor system. The facility has a high ceiling with industrial lighting and structural beams. The overall scene depicts a large-scale manufacturing or finishing process.

CONTROL PANEL

A large industrial facility, likely a paint shop, featuring a complex network of large, silver, insulated ducts and pipes. Below the ductwork, a long, white industrial machine is visible, with workers in dark clothing and hard hats operating it. The machine has a logo that reads "VIDALI IMPIANTI". The floor is light-colored, and there are blue bins and safety barriers in the foreground.
